EDUCATION

- **Shri Vile Parle Kelavani Mandal's Institute Of Technology, Dhule** 2023-2027
B.Tech Computer Engineering CGPA: 6.95
Relevant Coursework: Computer Architecture and Organisation, Data Structures, Operating Systems, Design and Analysis of Algorithms, Database Systems, Theory of Computation, Software Engineering
- **Jai Hind Junior Collage Deopur, Dhule** 2022-2023
The Maharashtra State Board of Higher Secondary Education Percentage: 60.17
- **Jai Hind High school & Junior Collage Deopur, Dhule** 2020-2021
The Maharashtra State Board of Secondary Education Percentage: 72.80

PROJECTS

- **SPINE-SAVER: Wearable Posture and Ergonomics Classifier using ML and IoT** JAN 2026 – APR 2026
(Academic Project)
Tools: IoT, Python, Machine Learning, KNN, SVM, ESP8266, MPU6050, React, Node.js, UDP
 - Developed a wearable posture monitoring system using IoT sensors and Machine Learning for real-time ergonomics analysis.
 - Integrated ESP8266 and MPU6050 sensors to collect posture and movement data for posture classification.
 - Implemented and compared KNN and SVM models for detecting upright, slouched, and asymmetric posture states.
 - Built a real-time dashboard for posture visualization, monitoring, and analytics.
 - Added vibration and buzzer-based alert systems to notify users of incorrect posture instantly.
- **UNIQUE FITNESS – Freelance Full-Stack Fitness Ecosystem** (Ongoing) NOV 2025 – JAN 2026
Tools: React 19, React Native, TypeScript, Node.js, Express.js, PostgreSQL, Supabase, Cloudflare R2, Expo SDK 54, Tailwind CSS, GSAP
 - Engineered and deployed a complete web and mobile ecosystem for a commercial fitness club to streamline memberships, workouts, and client engagement.
 - Developed a high-performance multilingual website (English, Hindi, Marathi) using React 19 and GSAP animations to enhance brand presence and customer acquisition.
 - Built a cross-platform mobile application using React Native and Expo featuring workout tracking, calorie monitoring, progress visualization, and membership management.
 - Integrated Google Gemini API to provide an AI-powered assistant for visitor queries, membership FAQs, and user support.
 - Developed secure REST APIs with JWT authentication and PostgreSQL/Supabase integration for scalable backend operations.
 - Implemented automated push notification workflows for membership reminders and admin announcements using Expo Notification Services.
 - Currently maintaining and optimizing the platform with regular feature updates, bug fixes, and performance improvements.
- **AQUAMONITOR – Water Monitoring and Analytics Platform** *(Academic Project)* AUG 2025 – DEC 2025
Tools: React 18, TypeScript, Node.js, Express.js, MySQL, Leaflet API, JWT, Recharts
 - Architected a full-stack environmental monitoring platform to manage groundwater and surface-water monitoring stations.
 - Integrated interactive geospatial visualization using Leaflet and OpenStreetMap for real-time station tracking and monitoring.

- Developed secure REST APIs with JWT authentication and role-based access control (RBAC).
- Designed optimized MySQL database schemas for efficient handling of environmental datasets and analytics.
- Implemented dashboards and PDF reporting features for monitoring station insights and alert management.
- **STUDYGENIE – AI-Powered Learning Platform** (*Hackathon Project – SUNHACKS 2025*) *SEPT 2025*
Tools: React 18, TypeScript, Vite, Tailwind CSS, OpenRouter API, Google Gemini, ReactFlow, Recharts, pdfjs-dist
 - Developed an AI-powered learning platform with a Local-First architecture for secure and efficient study management.
 - Built functionality to parse PDFs, text, and OCR-based image inputs into quizzes, summaries, and flashcards.
 - Integrated OpenRouter API with Google Gemini models for real-time AI-generated learning content.
 - Engineered interactive knowledge graphs using ReactFlow and analytics dashboards using Recharts.
 - Implemented gamification features including XP systems, achievements, and learning progress tracking.

SKILLS

- **Languages:** C, C++, Java, Python, JavaScript, TypeScript, HTML, CSS
- **Frontend:** React.js, Next.js, React Native, Tailwind CSS
- **Backend & Databases:** Node.js, Express.js, MongoDB, PostgreSQL, MySQL, Supabase
- **Cloud & Tools:** AWS, GCP, Git, GitHub, Postman
- **Core Technologies:** REST APIs, JWT Authentication, Machine Learning, IoT, Generative AI

CERTIFICATIONS

- LetsUpgrade EdTech , [React Bootcamp](#) *JUL 2024*
- Postman Academy , [Project-Based Learning: Build an AI Text Summarizer app](#) *NOV 2023*
- Postman Academy , [API Beginner Learning Path - Completion Certificate](#) *NOV 2023*

LANGUAGES

- English
- Hindi
- Marathi

POSITIONS OF RESPONSIBILITY

- **IT Support & Management – Core Team Member**, AWS Cloud Club, SVKM IOT, Dhule *DEC 2025-Present*
- **Technical Head, ARIF (AI Research and Innovation Forum)** SVKM IOT, Dhule *APR 2025 – Present*
